□Energy Supplement□

## **Harms of Harmful lipid in blood:**

cardiovascular & cerebrovascular diseases—Killer to modern people!

There are more than 17 million people died from angiocardopathy one year in the whole world!

Harmful lipid in blood: triglyceride, total cholesterol, low-density lipid protein.

The content of them rising up, is the reason of cardiovascular & cerebrovascular diseases!

## **The process of cardiovascular & cerebrovascular diseases:**

Blood viscosimeter rise up

Atherosclerosis

Lack of myocardial blood supply, blood pressure getting higher

Coronary heart disease & hypertensive heart disease

Myocardial infarction etc.

The key of preventing cardiovascular & cerebrovascular diseases, is to reduce content of those harmful blood lipid□

## **“The French Paradox”**

Frenchman eat so many meat in the diet, and the cholesterol is large

taken, and they addict to drink & smoke.

Consumption of grape wine in France is the first place in the world.

Therefore seem to think: Because of the factor of the diet and life style, Frenchmen should be that one have colonies with dangerous health; The incidence of disease and death rate of the French cardiovascular disease are relatively low.

Through the finding, the French incidence of coronary heart disease compares with death rate in the other western countries, especially much lower than Englishmen and Americans.

This strange phenomenon is called " The French Paradox " by the academia.

1989, cardiovascular disease control system of the world of World Health Organization (WHO) - -" Monica's project " Epidemiology discover:

The diet structure of Frenchmen, Englishmen and Americans is the same basically.

But Englishmen like drinking strong Spirit, Americans like drinking beer, but Frenchmen favour in the grape wine.

Obviously, it was grape wine that difference sum worked.

Researchers think after analysing carefully , the reason of " French strange circle " , is a material in the grape wine.

## **What is Resveratrol?**

Resveratrol□It is a kind of natural material with very strong biological

activation.

It is a kind of important natural plant antitoxin and antioxidant too.

It exists among the plants such as grape, mulberries, peanut, especially the grape peel.

## **What are the functions of Tiens grape-extract capsule?**

### 1 □ Regulate the blood fat, prevent the atherosclerosis □

Cardiovascular & cerebrovascular diseases—awful killer to modern people!

There are more than 17 million people died from angiocardopathy one year in the whole world!

harmful lipid in blood □ Triglyceride, total cholesterol, low-density fatty protein.

The content of them rising up is the reason of cardiovascular & cerebrovascular diseases!

The key of preventing cardiovascular & cerebrovascular diseases is to reduce content of those harmful blood lipid □

The Resveratrol has function of reducing the serum cholesterol, have satisfactory results in alleviating the heart disease, can improve the cardiovascular system function, lower the blood pressure , and has not found any side effect .

## 2□Anti-oxidize, delay aged.

Aging is the inexorable law of the human life course, but it is very essential to postpone old and feeble emergence, it is totally possible too.

Want to slow aging, One must grasp the law of old and feeble.

The modern anti-ageing theory thinks, " free radicals "have very strong oxidizing, plays important role to make cells and human body to be old and feeble, and even " root of the trouble " of the death.

Resveratrol can suppress and dispel the free radical effectively , has good anti-ageing function .

In the fight against of the free radical, Resveratrol is the vanguard.

Resveratrol can make body dissolve free radical, prevent the cell membrane from being attacked and damaging by the free radical, thus delay the aging course of the organism effectively.

## 3□Regulate immunity of body.

The function of Immune system in human body equivalent to that of army and policeman for a nation, is the assurance of the health " long-term stability ".

If the immune system is damaged for various reasons, body resistance against diseases will be low, various kinds of wil lget the chance to cause serious injury to the health.

Resveratrol can enhance human body's immune function. And make immune system can effectively to kill various kinds of pathogen and tumor cells, thus improve the resistance against diseases.

In addition, it still supplements physical power and promotes the function that recover.

## **Who needs to choose the Tiens grape-extract capsule?**

Middle aged people, forty years more than.

People with High blood fat

People with high food fat for a long period

People with high blood pressure

Lacking blood for Cardiac muscle

## **Tiens grape-extract capsule**

Tiens Group cooperate with Microorganism academe, China, through the efforts of years, our products are all in leading position both domestic and internationally in the quality , scale , the production technologies.

Rely on the modern biotechnology,

contain the high density active factor ——Resveratrol□

**The content resveratrol in one capsule□**

**will be higher than one bottle of red wine□**
